

# DATA SHEET

## **VPL30KT-300, 1527616**

This set is specially suited for creating large starlight ceilings. The size of the starlight ceiling is approx. 6-10 m<sup>2</sup>.

The fibres of the set are plastic and tolerate temperatures of up to 80 °C. The fibres may not be installed in a sauna, however they are suitable for steam rooms and infra-red saunas, in which the temperature remains below 80 °C.

The projector is equipped with kaleidoscope effect which makes the stars slowly twinkle in bluish colours, The effect resembles the real starlight sky, in which the stars grow brighter and dimmer with no regular pattern. The light sources of the projector are white, blue and cyan coloured LEDs.

The complete ready-to-install set includes a projector and a fibre harness. Fibre size  $\varnothing$  0.75 mm, numbers and lengths as follows:

75 x 3,0 m

75 x 3,5 m

75 x 4,0 m

75 x 4,5 m

The fibers are maintenance-free after the installation.

### **The projector in the set is:**

# DATA SHEET

LED PROJECTOR VPL30KT IP65, CODE 1501456

VPL30 KT Led projector is equipped with kaleidoscope effect, produced by RGBW techniques, it makes colours slowly change in bluish colours. The light sources of the projector are white, blue and cyan coloured LEDs. The projector is suitable for both glass and plastic fibres. The protection rate is IP65, so it is possible to be installed in a sauna, on the wall, under the benches, max. 70 cm from the floor level.

- 230V
- Kaleidoscope effect
- L 250 x W 150 x H 83
- Led, 50.000h
- Includes an electronic transformer
- IP65
- Weight 2.5 kg
- Fibre harness mounting hole  $\varnothing$  30 mm

The maintenance of the projector: the projector is recommended to be installed with easy access.

In case of malfunction, please contact the seller or the manufacturer for evaluation of repair.

If case the circuit board needs to be replaced, the following spare part is available:

1532323      CIRCUIT BOARD (8CH DRIVER) for the following projectors: VPL30 T/CT/NL/FL/KT/UV
